**Subject: North American Development Bank Improvement and General Capital Increase
Authorization Act of 2017, HB882**

Dear Chairman Hensarling and Ranking Member Waters,

As a concerned citizen, I write to express my support for a legislative increase in capital funding for the North American Development Bank (NADBANK). NADBANK has been an instrumental tool since the inception of NAFTA to address environmental infrastructure. The border regions of California, Arizona, New Mexico and Texas are striving to ensure necessary infrastructure to protect the environment and public health.

In California our beaches receive untreated sewage wastewater, toxic chemicals and plastic pollution. Further, California Border Patrol agents are falling ill because they have to work in sewage and unknown chemicals. We believe further investment in the border region is necessary.

I also respectfully ask that you support HB882 relating to a capital increase for NADBANK.

Thank you for your time and I look forward to receiving your update.

Sincerely,
